LinkedIn: [@zafergok](#)

I switched from Mathematics Education to follow my passion for software and technology. I pursued computer programming studies and now primarily work as a Frontend Developer. I continuously learn about different technologies and engage in small projects to gain practical experience.

- **Skills:** React, Redux, Next.js, TypeScript, Vite, Tailwind CSS, SCS, Azure

EXPERIENCE

PozitifTech – Frontend Developer

Dec 2023 - Current

- ❖ At PozitifTech, I have the opportunity to experience the intricacies of the banking sector and develop my practical knowledge.

Tech: Next.js, Redux, TypeScript, Azure, Material Joy, Tailwind CSS

Venhancer – Software Developer

Aug 2022 - Dec 2023

- **Out Source: Edenred Turkey**
 - We made UI and responsive improvements. As a result of these enhancements, the website's usage rate increased by 30%.
 - I have created a structure on the screen where top-ups can be made to the meal card by importing data from an Excel file.
- **Out Source: Fibabanka**
 - In this project, I gained experience with and utilized the React Native Web part.
 - Thanks to this project, I gained experience with the banking side and played a key role in establishing the credit lending system between car gallery owners and customers.
- **IT Support - Help Desk**
 - I managed internal services, including identifying and managing new service providers, and facilitated employee device support by procuring devices, setting up emails, and resolving email issues.
 - This role required collaboration with various departments, including procurement, service providers, accounting, and sales.
- **Out Source: MTEK Bilişim**
 - I played a dual role in a major football league project, contributing to UI design and workflow processes, while also optimizing code quality and performance by implementing a caching mechanism.
 - My responsibilities included ensuring responsive UI across various platforms for current and future projects.
- **Out Source: Anadolu Sigorta**
 - I was the sole frontend developer in the project, responsible for determining and setting up everything the project needed from the start.
 - We were part of the network team, and I participated in UI designs, responsive design, and business flow tasks based on their requirements.

Tech: ReactJS, Redux, React Native Web, TypeScript, Azure, Ant Design, Vite, useQuery, Keycloak

- I contribute to the company's international marketing efforts by building new websites and optimizing their SEO performance for global reach.
- I design and implement high-performing React/TypeScript web applications, ensuring fast page speed.

Tech: ReactJS, TypeScript, EverGreenUI

DigitalAct — Frontend Developer**Mar 2021 - Sep 2021**

- Learned and utilized Javascript and React for projects, developing features based on customer feedback.
- Worked on the Admin Theme project, building the entire structure from scratch to deployment. Learned CSS3, Sass/Less, and Ant Design as CSS frameworks.

Tech: ReactJS, Redux, Swagger, HTML, CSS, Ant Design

LANGUAGES

Turkish, English

EDUCATION

Anadolu University, Eskişehir Turkey — Management Information Systems**2023 - 2025**

My openness to continuous learning and embracing new technologies empowers me to offer innovative solutions to companies and teams in the future.

Istanbul Aydin University, Istanbul Turkey — Computer Programming**2019 - 2021**

I am passionate about front-end development, leveraging my problem-solving, crisis management, and analytical skills. I enjoy collaborating as a team player and eagerly contribute to projects that create user-friendly interfaces and make a difference. My openness to continuous learning and embracing new technologies empowers me to offer innovative solutions in the future. I take great pride in playing a key role in companies and teams where I can utilize these abilities to make a significant impact.

INTERESTS AND ACTIVITIES

Interests: Cinema, Table Tennis, Video Game, Video Creating

Activities: During my free time, I enjoy playing table tennis with my friends and exploring new places to discover unique flavors. Additionally, I run a YouTube Channel where my friend and I review and critique movies.
